

Trees, Bees and Weeds

Hubert C. Crowell

Spring is here with bright green trees.
Spring is here with all the bees.

Win - ter has gone and left with a breeze.
Win - ter has gone and left all those seeds.

Sum - mer is com - ing with heat, flies and fleas.
Sum - mer is com - ing with flowers and more weeds.

Fall will bring color and maybe a freeze.
Fall will bring frost and multi colored leaves.
